We recommend using high quality USB Thumb Drives Only *

# DVR4-Net-PLUS™
4 Channel Digital Video Recorder
for Network & Web Monitoring with USB

The Swann DVR4-Net-Plus is the next generation of DIY security safety monitoring. Featuring four standard composite video inputs and 2 video outputs. It is the ideal CCTV system for small retail stores, homes or as a replacement for old fashioned time lapse recorders. Integrated motion activated recording also makes it ideal for covert observation systems. Control of the unit is via the front panel controls and on-screen display menu. Video recording is activated manually via alarm-inputs or automatically via built-in motion detection.
